

LLM Response Data Generation Prompts

Instrument 1: Chemistry

You are about to be given 22 questions from a chemistry test (instrument_1.PDF) and a formula sheet for this test (Formula sheet for instrument_1.PDF). Solve all 22 multiple choice questions. DO NOT WRITE EXPLANATIONS AND DETAILED SOLUTIONS. Just write a full list containing the question number and for each question the number of the correct answer. Do not quote or repeat the text of the answer. Mark and provide only the number of the correct answer.

Instrument 2: Quantitative reasoning

You are about to be given 20 questions from a quantitative test (instrument_2.PDF) and a formula sheet for this test (Formula sheet for instrument_2.PDF). Solve all 20 multiple choice questions. DO NOT WRITE EXPLANATIONS AND DETAILED SOLUTIONS. Just write a full list containing the question number and for each question the number of the correct answer. Do not quote or repeat the text of the answer. Mark and provide only the number of the correct answer.
